THE NEW CACTUS DAHLIA "GEO. L. STILLMAN" AND ITS ORIGINATOR

The accompanying illustration is from a photograph taken to demonstrate what the necessary quantity of water will do for a Dahlia in a dry time. After one flower had nearly opened on this plant it appeared to come to a standstill. Buds died, the foliage grew bushy, lacked a lively color, and no more buds appeared. I immediately pulled up a ridge of soil a little away from the plant, forming a reservoir that held two pails of water. The plant was then supplied with four or five ten-quart pails of water every third day until rain came.

When this photo was taken there were seven full flowers, two half open, and nine buds that showed the color of the flower more or less. Three of these flowers measured 7 inches in diameter and all the others over 5 inches.

Very few people realize the quantity of water needed to carry a Dahlia through a dry period. Not only does a Dahlia absorb the moisture, but the dry ground around also draws on the supply.

OUR COUNTRY

Good Morning, Friends!

IT would indeed be a great pleasure to say "Good morning" to you personally, my friends and customers, instead of greeting you annually with my pen. But since that is impossible, I must content myself with as direct and heartfelt a message as paper and ink can convey.

What can be more gratifying to the mind of a flower lover than a few minutes spent each day in a garden of dahlias! Truly the mind and soul reach out to greet and welcome the flowers as they unfold their rays of splendor, their attractive form and wonderful size. You cannot help saying, "Is it possible that such perfection has actually been accomplished?"

By the many congratulatory letters you have sent me I know that my efforts have to a great extent met the high ideals of perfection which have always been my ambition to attain. Looking back on the past season I cannot resist telling you that it has been full of successful experiments in dahlia culture. The wonderful new productions I have succeeded in creating more than compensate for the outlay and care I have given to this, my pet flower. The large numbers of you who have visited my fields this year have been another source of pleasure and gratification to me, and I am more than glad to assure you that the invitation to come and see is still open to all who love flowers and the beauties of Nature.

If there is one point in particular that this past season induces me to emphasize, let it be this: Do not be disheartened if the Weather Man sends a drought just when you want it wet, and wet just when you want it dry. Whether you grow dahlias or cucumbers, you have this to contend with — and the one who Sticks and Smiles is the one who wins. As I told you last year, the joy of working among flowers is beyond comparison, be the weather what it may; and no money renumeration can equal the joy of spirit which comes from this prized occupation.

GEO. L. STILLMAN.

REGARDING NEW YORK OFFICE: For the convenience of folks in the vicinity of New York who wish to consult me personally on the subject of dahlias, I have established an office at 489 Fifth Avenue, New York, Room 303 (opposite the Public Library). I make this my headquarters the first Thursday and Friday of each month when both days come the same month. It will be a pleasure to meet you there. Information and advice on dahlia culture, selection of varieties, etc. given cheerfully.

CLASSIFICATION OF DAHLIAS

AS ADOPTED BY THE AMERICAN DAHLIA SOCIETY

Cactus Dahlia. a. True, fluted type. Flowers fully double; floral rays (petals) long, narrow, incurved or twisted, with sharp, divided, or fluted points with revolute (rolled back) margins, forming, in the outer florets, a more or less perfect tube for more than half the length of the ray.

b. Hybrid cactus or semi-cactus type: Flowers fully double; floral rays short as compared with previous type, broad, flat, recurved or twisted, not sharply pointed except when tips are divided (staghorn), margins only slightly revolute, and tubes of outer florets, if any, less than half the length of the ray.

Decorative Dahlias. Double flowers, full to center in early season, flat rather than ball-shaped, with broad, flat, somewhat loosely arranged floral rays with broad points or rounded tips which are straight or decurved (turned down or back), not incurved, and with margins revolute if rolled at all.

Ball-Shaped, Double Dahlias. a. Show type: Double flowers, globular or ball-shaped rather than broad or flat, full to center, showing regular spiral arrangement of florets; floral rays more or less quilled or with markedly involute margins and rounded tips.

(The class called Fancy Dahlias is not recognized separately in this classification, but is included in the sub-section A.)

b. Hybrid show, giant show or colossal type: Flowers fully double, broadly hemispherical to flatly globular in form, loosely built so spiral arrangements of florets is not immediately evident; floral rays broad, heavy, cupped or quilled, with rounded tips and involute margins.

c. Pompom type: Shape and color may be same as A or B; but must be **under two inches in diameter.**

Paeony-flowered, or "Art" Dahlias. Semi-double flowers with open center, the inner floral rays being usually curled or twisted, the other or outer petals being either flat or more or less irregular.

Duplex Dahlias. Semi-double flowers, with center almost exposed on opening of bud, with petals in more than one row, more than 12, long and flat, or broad and rounded, not noticeably twisted or curled. Many so-called Pæony-flowered Dahlias belong here.

Single Dahlias. Open centered Dahlias, small to very large, with 8 to 12 floral rays, more or less in one circle, margins often decurved (turned down or back). There are no distinctions as to colors. The type embraces the large Twentieth Century, as well as small English varieties.

Collarette Dahlias. Single type: Open centered blossoms with not more than nine floral rays with one or more smaller rays, usually of a different color, from heart of each ray floret, making a collar about the disc.

GENERAL INSTRUCTIONS

IT IS IMPORTANT THAT YOU READ THESE CAREFULLY! ORDER EARLY

First of All.—Send me your order as soon as you receive my catalogue, as the demand for some varieties often exceeds the supply, and those who order early are less liable to disappointment than if they waited till the rush at the time of planting. ORDER bulbs sent **early** to avoid disappointment. Kindly order by **name** and not by number.

If you do not want to spare all of the money to send with the order, send the order along, together with one-quarter of the amount as a guarantee of good faith, and the balance can be remitted when you receive notice that your order is ready to ship.

Customers who are not personally known to me will be notified when to remit the amount of their bill.

Bulbs are shipped as soon after April 1st as convenient, unless otherwise specified.

When sending orders use the Order Blank furnished with this catalogue. Any number of additional Order Blanks may be had upon application. When filling out the Order Blanks, be sure to fill out the Second Choice columns as well as the First Choice.

It is well to mention the varieties that you are willing to have substituted in case some of those selected are all sold out. Or, if requested, I will select such varieties as will substitute to best advantage. Otherwise, money sent for such bulbs will be returned to the sender.

Size of Bulbs.—Some varieties of Dahlias always produce very small bulbs (of tubers), while other varieties make large ones. So do not consider small bulbs as worthless, for they are equally as good as large ones.

I Guarantee Every Bulb I Sell.—The utmost care is always exercised in selecting every bulb I send out, and every one is believed to have at least one good sprouting eye that will produce a good plant under proper care, or replace it with another.

GENERAL INSTRUCTIONS—Continued

Bulbs to be replaced after June 1st will be booked for shipment the next season only, and in all cases the bulbs to be replaced must be returned.

I guarantee all bulbs to be true to name and sure to grow at the time they are sent out.

The best way to send money is by registered letter, money order or express order.

Do not hestitate to send small orders. An order for one bulb will be as carefully filled as an order for one thousand.

Terms.—Cash invariably in advance, or C. O. D. On all retail orders fully paid for in advance I will prepay carriage to any part of the United States. This does not apply to special offers.

ATTENTION.—Orders taken in the Fall not fully paid for will be sent C. O. D., unless previous arrangement has been made.

Do not delay ordering until the time to plant, as many varieties may be sold out before that time. ORDER EARLY.

If bulbs are received before it is convenient to plant them, they should be covered with moist earth until planted.

I use the utmost care to prevent errors in labeling and packing, but if an error does occur, kindly notify me, that it may be rectified immediately.

Please bear in mind that orders are booked and assembled in rotation as received, and are packed to be shipped at the time your order specifies.

Address all orders and communications to Geo. L. Stillman, Dahlia Specialist, Westerly, Rhode Island. **Important.**—It is essential that you use the initial "L." as there are several Geo. Stillmans in town.

Do not hestitate about ordering Dahlia Bulbs on account of distance, for they go safely by mail or express to any part of the world

POINTERS ON GROWING DAHLIAS

There are always some people who do not succeed in growing Dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is wholly due to your method of cultivation, kind of soil, or weather conditions. A glance through the hundreds of letters I receive from pleased, enthusiastic people who purchase their stock from me is positive proof that my stock is without fault. Exercise a little patience and a whole lot of good common sense and you will grow as nice Dahlias as anyone.

The Right Kind of Soil.—The kind of soil for Dahlias is a light loam or a stony knoll or side hill.

It is very essential that the soil has good drainage. A rich soil is all right if it has good drainage. Heavy, solid ground will produce an abundance of foliage and few and inferior blossoms.

It should be borne in mind that the poorer the soil, the more fertilizer it requires, and the lighter the soil, the more water it needs. See directions for watering elsewhere. It is a very unwise thing to advise no fertilizer in growing Dahlias, especially in the Eastern states. As a rule nothing will grow without sufficient nourishment. Heavy soil is usually quite rich and when lightened as directed elsewhere, will not need as much fertilizing as weak, light soil.

Heavy Soil.—If your soil is heavy with a clay sub-soil, it should be lightened with coal ashes or sand. If coal ashes are used, the coarser that they are the better, the main object being to make the soil lighter, more porous, and to give it a good drainage. I have seen Dahlias grown to perfection on a spot where the soil was nearly clear coal ashes.

In applying coal ashes they should be plowed, or spaded in, broad cast, 10 to 18 inches deep, and not dumped in one spot where the Dahlia is planted. One part coal ashes, or sand, and one part soil will not lighten it any too much. This will give a better drainage and allow the sun to act on the soil to a greater depth.

Ashes from either hard or soft coal will do but on **very heavy** soil those from soft coal

POINTERS ON GROWING DAHLIAS—Continued

are preferable, being much coarser. Both kinds mixed together are also desirable.

Watering.—Watering is one of the most essential things in producing perfect blooms on your Dahlias. 90 per cent. of the failures in growing Dahlias is due to lack of water when the hot days of Summer come. Did you ever notice that the stalk of the Dahlia is about all water except the outside shell, and that where sufficient water is supplied the hole in the center of the main stalk is nearly full of water?

The Dahlia, as soon as it begins to bloom, will absorb the moisture from the soil for a distance of two or three feet. For example: Dig down deeply amid the roots of the Dahlia and then again about 4 or 5 feet from the plant and observe the difference. The dry hot days come earlier some years than others, but usually when the buds begin to open it is time to begin watering.

The best method of doing this is to make a basin-shaped mound of earth around the plant, about 2 feet in diameter, and into this basin turn three or four water pails full of water as often as every three or four days. Fertilizer is used to obtain size, water to make richness of color and perfection. Try it.

Planting.—The ground should be plowed or spaded to a depth of 8 to 10 inches. Make the drill to receive the bulb, 12 to 16 inches long and 6 inches deep, and about 6 inches wide. Lay the bulb down flat in the drill and then apply the fertilizer on both sides of the bulb, 4 to 6 inches from the bulb. If pulverized Sheep Manure is used, about one pint to one quart is usually sufficient to each bulb according to the strength of the soil.

It is very desirable to plow in a quantity of stable manure broadcast. If this cannot be obtained readily any kind of animal fertilizer mixed with the soil, before planting, will be very beneficial. Always stick the stake in the ground before covering the bulb and thus avoid piercing any part of the bulb.

FERTILIZER FOR DAHLIAS

I receive numerous inquiries every year as to the best fertilizer for Dahlias and where it can be obtained.

From my own personal experience, I find that manure from sheep stable is the best for Dahlias, and in order to make it convenient for my customers to obtain this kind of fertilizer, I procure a supply direct from the stockyards. It is absolutely pure and thoroughly kiln-dried and pulverized, and all germs of grass or weeds are destroyed in the process. It is put up perfectly dry in 100-pound bags, which is the most convenient form for shipping and handling. It is so dry that it is nearly odorless and easily handled. Price for the Sheep Manure, $2.75 per bag.

A TALK FOR THE BEGINNER

A FEW THINGS THAT SHOULD BE CONSIDERED

Do not expect to grow as large flowers as an expert the first year that you try Dahlias, for with any flower you need some experience as well as instruction in order to have great success.

One of my customers said that he had no luck with Dahlias until he read my catalogue. There he found the very information that he needed, viz.: **How to lighten the soil and render it porous.**

If you have a heavy growth of plants and no flowers it is an indication of too heavy soil, or the same result will be encountered on some dry, rich land. In the latter case water is what is needed and in great abundance, say three or four pails of water three times a week to each plant, with some liquid fertilizer once a week.

Notice that after a heavy rainfall Dahlias take on a new life and the flowers are fuller in the center and more brilliant in color.

All the Dahlias described in this catalogue as to color and shape are described to the best of my ability, but I do not guarantee them to fully meet the ideas of all purchasers in regard to color shadings.

NEVER STAND THE BULB ON END WHEN PLANTING

The best method of planting in the field is to make the distance between every other row 3 and 5 feet, respectively, thus affording a passageway on one side of each row after the plant will become large and fill the 3-foot space. 2½ to 3 feet apart in the row according to the nature of the plant is about the right distance when 3- and 5-foot spaces are used. Do not plant near trees or shrubs, as tree roots will take the strength of the soil from the Dahlia. In the open by themselves is the best place. Avoid the south side of a

POINTERS ON GROWING DAHLIAS—Continued

large building where the sun is extremely hot without a good circulation of air, for the flowers will burn on the back before fully open.

For early flowering they may be planted any time after May 1st or as soon as all danger from frost is passed.

Some people have an idea that the larger the bulb the better the plant it will make, but this is not the case. A small bulb is just as good as, and in many cases better than, a large one.

The Clumps should be divided about the time that you are to plant in the Spring. At this time you can readily see where the sprouts are and with the use of a knife the head of the clump can be split through between the sprouts, or eyes, taking whatever bulb, or bulbs, would come off with one sprout. One sprout is always better then more. If the sprouts are over 2 inches long when you plant the bulb it is better to cut them off a half-inch from the bulb and a new sprout will come and make a better one than the slender one that grew in the cellar.

Care of the Plants.—Keep the ground well cultivated and free from weeds. A frequent stirring of the surface is very beneficial. An application of some standard fertilizer raked into the surface of the soil around the plants two or three times during the season will be very helpful to the development of the flowers.

Never leave more than one or two stalks in a hill. You will have better plants and larger flowers if you will allow only one sprout to grow.

When the buds begin to open a dressing of liquid fertilizer around the plants, several times in a season, will also be beneficial.

Stakes may be used to advantage to prevent plants from breaking down.

Disbudding.—The proper way to disbud the plants is as follows: If the first, or crown bud, appears to be weak or defective, cut it off.

Then when flowers appear on branches, cut them for decorative purposes, below one or two joints, thus removing with the flower whatever buds and foliage may be there. The flowers and foliage cut thus give a better effect for whatever purpose they are to be used. This method is a good invigorator for the plant and at the same time does all the disbudding required on the majority of Dahlias.

Remember, if bulbs are received before you are ready to plant them, cover them with moist earth to keep them from drying up.

Care of the Bulbs in Winter.—After the frost has killed the foliage, lift the clumps with a spade fork and allow them to dry in the sun about half a day. They should then be stored in a place free from frost. If an old-style cellar without cement bottom or heat, they need not be covered, but if cemented and heated by furnace, they should be covered with papers and cloth to keep the air from them and thus prevent too much shriveling.

"Say it with Flowers"

If any little flower of ours
can make one life the brighter,
If such a little gift of ours
can make one heart the lighter
God help us do these little things
while life is sweet with singing
Then you'll know the flower of love
has set the echoes ringing.

The Ocean Group

THE OCEAN GROUP

ORIGINATED BY GEO. L. STILLMAN

NEW GROUP FOR 1923

Pacific Ocean, No. 2348

A mammoth Pæony-flowered Dahlia of a salmon pink color clouded darker in some flowers. The florets fold nicely, and twist and curl in a most exquisite manner. An exceptionally beautifully formed flower and an attractive color.

Price, **$25.00**

Arctic Ocean, No. 2326

This beautiful Pæony-flowered Dahlia in color and form is all that can be desired in a dahlia. It is borne on long, stiff stems and is a beautiful peach pink with a few lines of cream. A very attractive, mammoth flower.

Price, **$25.00**

Indian Ocean, No. 2444

This mammoth Decorative Dahlia is truly beautiful in color, form, and size. The color is a medium carmine red heavily clouded yellow at base of petals which are slightly clouded and veined light cream; some petals are slightly tipped yellow. A huge flower finely formed. Price, **$25.00**

Atlantic Ocean, No. 2346

This is the largest Hybrid Cactus in my collection, and of a most beautiful shade of canary yellow. A very full flower with long pointed folded petals, slightly curving. Strange as it may seem this dahlia is a very free bloomer and the flower holds to a large size very late without disbudding. Price, **$25.00**

FIVE NEW SELECTIONS FOR 1921

ORIGINATED BY GEO. L. STILLMAN

THE NEW YORK GROUP

COMMODORE, No. 823

The color of this mammoth Pæony-flowered Dahlia is a beautiful deep pink flesh pink. The flowers are very large, often measuring 10 and 11 inches in diameter, and are borne on extra long, heavy stiff stems. It is a profuse bloomer and if disbudding is practised it can be made to produce enormous blooms.

Price, **$5.00**

BELMONT, No. 2069

A beautiful, deep magenta is the color of this huge Pæony Dahlia. It is an abundant bloomer and a thrifty grower. To form an idea of the richness and beauty of this large flower one should see it growing.

Price, **$5.00**

BILTMORE, No. 2008

This magnificient Decorative Dahlia is the most beautiful combination of bright, rich carmine and white ever combined in a Dahlia. The groundwork is a bright, rich carmine and the petals are more or less tipped pure white. Occasionally some flowers are nearly all carmine with a few petals tipped white. The plant hanging full of these stunning blooms presents a sight rarely seen.

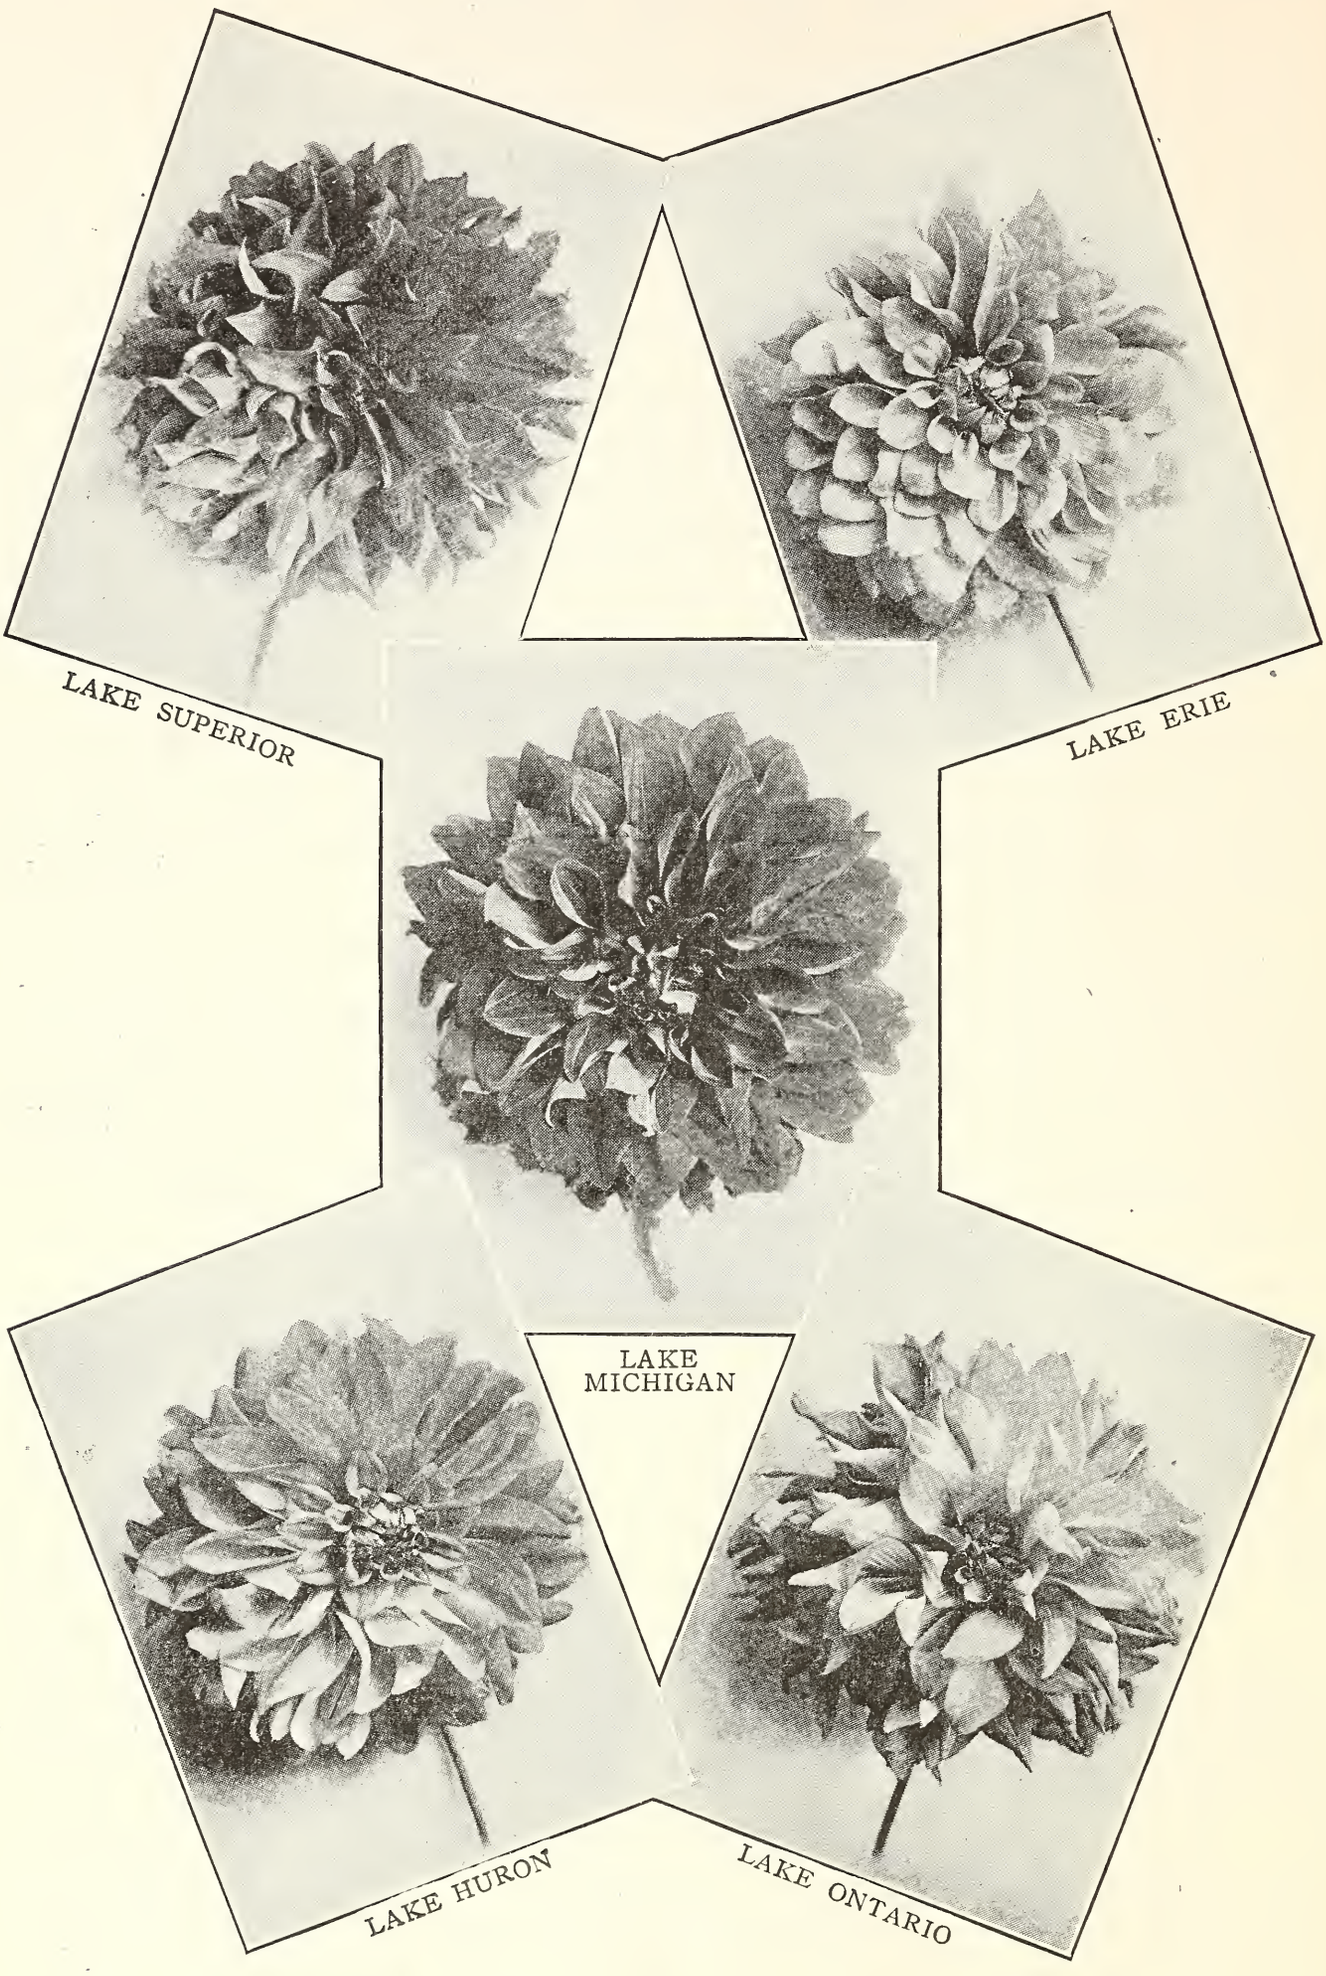
Price, **$5.00**

MURRAY HILL, No. 2022

An entirely new Pæony-flowered Dahlia of a beautiful, rich shade of purple. The flowers are simply huge in size and on good stems, which, together with their unusually attractive shade and hugeness, cause every passerby to stop and exclaim: "That's a monster." Price, **$5.00**

ANSONIA, No. 2064

Without an exception the color of this large Pæony Dahlia is the most gorgeous and brightest deep canary yellow Dahlia I have ever seen. Its rich colorings never fail to catch the eye of every observer. This immense flower is carried well above the foliage on good, long, stiff stems. Price, **$5.00**



The Great Lakes Group

THE FIVE GREAT LAKES

ORIGINATED BY GEO. L. STILLMAN

NEW GROUP FOR 1922

Lake Superior, No. 2146

The color of this mammoth Dahlia is deep orange salmon. A solid color throughout. The formation of it is of the Hybrid Cactus class and very much resembles its parent, the "U. S. A.," but of a softer shade and promises to be a larger flower. This Dahlia will be a rich prize in any Dahlia lover's garden.

Price, **$15.00**

Lake Erie, No. 2216

This is, without doubt, the largest lavender Decorative Dahlia in existence. The color is a clear deep lavender, while the form is quite flat with heavy, long, flat florets. A very unusual and beautiful Dahlia both in color and shape which can only be realized by seeing it. Blossoms from 8 to 10 inches in diameter. Plants of medium height. Price, **$15.00**

Lake Michigan, No. 2194

A rich, fiery scarlet Decorative Dahlia of immense size. This is a very large, deep, heavy flower, 10 to 13 inches in diameter. The stems are heavy, but the great weight of the blossom prevents it from being held erect, yet it is a wonderful exhibition Dahlia and a most attractive one in the garden. The plants are tall and strong. Price, **$15.00**

Lake Huron, No. 2164

A very large, clear, bright canary-yellow Pæony-flowered Dahlia, 7 to 10 inches in diameter. This new Dahlia is a remarkable large size flower and is borne on long, heavy stiff stems which hold the flower erect. Its very free blooming qualities combined with its other unusual features place this Dahlia in the front rank. The plant is of medium height and an early bloomer.

Price, **$15.00**

Lake Ontario, No. 2150

Decorative Dahlia of unusual merit. The color is salmon and gold blended together in a beautiful manner. The flower is from 6 to 9 inches in diameter and is produced on long, heavy, stiff stems. The curly, twisting formation of its florets together with its beautiful combination of colors blended together give this Dahlia a very striking appearance. Price, **$15.00**

The Entire Group $65.00

PRIDE OF THE GARDEN

THE NEW GROUP FOR 1920

ORIGINATED BY GEO. L. STILLMAN

FIVE WORLD WINNERS

AMERICAN HERO, No. 963

A most wonderful Pæony-flowered Dahlia. The color is difficult to describe accurately. The center of the florets is a beautiful shade of old rose, outer edges are bordered with light pink. The disc is surrounded with numerous small, curly florets possessing the same beautiful shades of pink. The whole flower possesses the most striking and desirable colors yet produced in a Dahlia. It has good stems which hold these beautiful flowers very erect. Price, **$3.00**

OVER-THE-TOP, No. 921

This new Pæony-flowered Dahlia is truly a mammoth and of a very unusual color, being a deep rose lavender as near as can be described. Some people have called it pure rose, others a lavender pink. However, it is a wonderful flower in every way, size, color, formation, and its free blooming qualities are unsurpassed. Price, **$3.00**

R-34, No. 927

A mammoth Pæony-flowered Dahlia of a golden salmon shade. In size and formation this Dahlia is wonderful. The flower, which is borne on long stems, is extremely large; colorings unusually attractive. Price, **$3.00**

LEAGUE OF NATIONS, No. 908

Here is a new Cactus Dahlia of more than ordinary merit. The color is a most beautiful shade of canary-yellow. In size it is the largest Cactus Dahlia yet produced. The stems on which the flowers are borne are very long and heavy, holding the mammoth flower quite erect. The keeping quality of this Dahlia has proven the past season to be wonderful, while its beauty has attracted much attention from visitors. Price, **$5.00**

N. C. 4, No. 901

This wonderful new Decorative Dahlia is a most unusually hard Dahlia to describe, as it is about equally divided with scarlet and white. The florets are more or less striped the whole length with yellow and white, while some are slightly clouded with yellow and tipped with light cream. The reverse side of petals is white with yellow shadings. The whole flower is simply beautiful and unusually attractive. Price, **$3.00**

THE TEN SEA LIONS

THE GROUP OF WONDERS

Adriatic, No. 792. The color of this large, Cactus Dahlia is a clear, bright, canary yellow. It is an immense flower and that shade of canary yellow most desired. The plants make a low growth and the beautiful flowers are very showy and attractive

Price, **$3.00**

Aquitana, No. 758. The color of this gorgeous new Cactus Dahlia is a beautiful salmon pink. The flowers are very large and are borne on long stems with scant foliage, making it most desirable for cutting.

Price, **$3.00**

Arlanza, No. 520. Style Cactus. The color is a bright medium carmine. The petals are very small and wire-like and stand up and incurve in a beautiful manner. A very peculiar feature of the flower is that each petal has a hair-like red and white long petal at its base. An extremely fine, large Cactus Dahlia. Price, **$3.00**

Empress of Asia, No. 721. A wonderfully large, fine Pæony-flowered Dahlia. The color is a deep old gold with a strikingly bronze effect. This is another of those colors so desirable and hard to get in a Dahlia. A flower of exquisite beauty. Price, **$3.00**

Lapland, No. 730. Pure, glistening white is this noble flower. The petals are broad and good formation. It is a free blooming variety and has fine stems for cutting. If you want a beautiful white, buy a Lapland. Price, **$3.00**

Mauretania, No. 738. This magnificent big, new Cactus Pæony Dahlia is simply a wonder in size, shape and color. It is a light golden mandarin, or on the light orange order. It is quite a tall growing plant and the flowers are produced in abundance. A very showy, attractive Dahlia. Price, **$3.00**

Medina, No. 757. This Pæony-flowered Dahlia possesses one of the most striking colors that a Dahlia could possess. A *golden orange.* The flower is not as large as some of the other "*Sea Lions*," but the color is magnificent and desirable. It has good stems for cutting and is a very valuable member of the "*Sea Lion*" family. Price, **$3.00**

Rochambeau, No. 811. A very bright, deep canary yellow of immense size and fine form. The Rochambeau is the tallest plant in the "Sea Lion" family, and would make a fine background in any Dahlia garden. It is a very free flowering plant and makes a fine showing above the other members of the group. Price, **$3.00**

CARUSO, No. 2132

THE FIGHTING TEN

ORIGINATED BY GEO. L. STILLMAN

Gen. Bell, No. 802. Pæony. Pure, glistening white. Petals numerous; very long and quite slim, curly and twisting. A beauty beyond description, and an enormous flower on extra long stems. Price, **$3.00**

Gen. Edwards, No. 2114. Pæony. Color, a beautiful salmon pink. A very large flower on fine, long stems. The formation of this flower is exquisite. Price, **$3.00**

Gen. Haig, No. 585. Decorative. A beautiful shade of peach pink, slightly clouded yellow at base of petals. A very odd and nice color and a wonderfully formed, large flower. Price, **$3.00**

Gen. Maurice, No. 639. Pæony. Intensely bright scarlet. The brightest mammoth scarlet Dahlia in existence. The petals are quite broad, long and pointed. The yellow disc is bright and attractive. Price, **$3.00**

Gen. Pershing, No. 617. Cactus. A beautiful bright shade of light carmine. A very full, heavy, deep flower with long, heavy stems. Some stems measured 24 inches long. The whole flower is much superior to the Kalif. Price. **$3.00**

Gen. Petain, No. 647. Pæony. Butter yellow. Petals rolled back slightly lengthwise and twisting. The flower is another of the wonders in my collection of original Dahlias. Price, **$3.00**

NEW PÆONY-FLOWERED DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

THE INDIAN FAMILY

Black Hawk, No. 54. Deep velvety maroon. The darkest flower in the Indian Family. The colorings are extremely rich and the flowers are large. The petals are broad and twisted to a point at tips. Is an extra free bloomer. Price, **$1.00**

Canonchet, No. 66. An entirely new color shading on a grayish salmon. Petals are long and rolled to a point at tips. Slightly incurving. Small petals curled up around the yellow center in very unique manner. This is a large flower and the long petals are dotted with slightly deeper small blotches of pink and suffused with a pale gold which glistens faintly. Price, **$1.00**

Canonicus, No. 1036. Beautiful dark cerise. A very unusual shade and no other Dahlia like it in shape and size has ever been produced. A large full flower. Price, **$1.00**

Massasoit, No. 1021. Variegated. This flower is very showy and attractive. Petals being a dark maroon heavily tipped with white give the flower the appearance of being about one-third white and two-thirds maroon shade. Not as large a flower as some of the other Pæonies, but very attractive. Price, **$1.00**

Minnehaha, No. 78. Light red. This is an extra large, heavy, full flower with broad petals which are slightly pointed and twisted at tips. The plant grows quite high and being a very free bloomer is one of the most showy Dahlias of the "Indian Family." Price, **$1.00**

Minnewawa, No. 76. Bright cerise red. Base of petals yellow with white disc around the center. Balance of petals heavily clouded and tipped white. Very striking combination of colorings. Price, **$1.00**

Narragansett, No. 1033. Rich shade of dark scarlet. This flower should be seen in order to be appreciated. It is large, finely formed, and a very full flower. It blooms very freely and has been a general favorite wherever exhibited. Price, **$1.00**

Ninigret, No. 151. Rich dark red, clouded and striped much lighter. The petals taper abruptly to a sharp point which is twisted in a very attractive manner. A full, heavy flower of unusual quality. Price, **$1.00**

Nokomis, No. 1112. Variegated yellow. The base of the flower is white and canary yellow mixed together. Heavily striped and speckled with dark red. Occasionally solid red blooms appear on the same plant. The plants are of a low growth and flowers stand high above the foliage. Price, **$1.00**

Osceola, No. 39. Very light canary yellow. An enormous flower and beautifully formed. The most delicate shade of light yellow imaginable. This is a very free blooming Dahlia and should be seen to be appreciated. Plants only. Price, **$1.00**

Pocahontas, No. 69. Light cream yellow. This flower is very large with flat, broad petals except in the center. Petals are flushed and veined deep pink, possessing some of the colorings of the Geisha. A very free bloomer and in every way desirable. Price, **$1.00**

VASE OF RUTH VAN FLEET

NEW PAEONY FLOWERED DAHLIAS—THE INDIAN FAMILY—Continued

Powhatan, No. 101. Dark crushed strawberry. This very large flower is another of unusually fine shading. While it has the colorings of the crushed strawberry, it also possesses a light tint of lavender and the free-blooming qualities. Price, **$1.00**

Queen Esther, No. 103. Color, "Du Barry," that dazzling new shade of red. An enormous, large full flower and a beautiful rich color. The small twisting florets in the center of this flower give it a most unique appearance. A wonderfully free blooming Dahlia. Price, **$1.00**

Red Cloud, No. 84. Rich deep carmine. This is a large, full flower of a solid color and is borne in abundance on a plant of high growth. Price, **$1.00**

Samoset, No. 1007-1. Light yellow. Some of the petals of this flower are slightly shaded with pink, while the whole flower is full and of the true Pæony type. Small curly petals on the face of this flower give it a very desirable effect. A very free blooming variety . Price, **$1.00**

Squanto, No. 102. The color of this Dahlia is hard to describe on paper. It is of a reddish violet, growing more red at the base of petals. The flower is large and makes a very showy plant by its free-blooming qualities. Price, **$1.00**

Uncas, No. 147. Pure white. A beautiful pure white somewhat resembling South Pole, but petals more curly and twisted. A very unique shaped, free-blooming Dahlia, and exceptionally desirable. Price, **$1.00**

Wadawannock, No. 1034. Light coral. This is a large flower with broad, flat petals and with just enough twisting, curling petals in the center to give it a nice Pæony effect. This is an entirely new shade and one of those very effective and desirable colors seldom seen in the Dahlia. Price, **$1.00**

Price of the above, one each of the set, $15.00

THE LOMA FAMILY

ORIGINATED BY GEO. L. STILLMAN

THE EIGHT SISTERS OF THE LOMA FAMILY

Edna Rollins, No. 1460. Pæony-flowered Dahlia blotched with old rose. Streaks of yellow near center and slightly through petals. Light blotches of dull yellow mingle faintly with the dull rose. Numerous small curly petals around center of flower. Good size on long stems. Price, **$1.00**

Esther Du Barry, No. 489. A beautiful clear, velvety cardinal with long, slimly rolled petals, nice Pæony type, which twist and curl beautifully at points. Numerous small petals around central disc. Extra long, stiff stems which hold the flowers very erect. Price, **$1.00**

Evelyn Loma, No. 448. A fluffy white Pæony-flowered Dahlia with long, slim pointed petals, curled and rolled in a pleasing manner. The very base of petals is slightly shaded yellow. A fine, large specimen erect on extra long stems. Price, **$1.00**

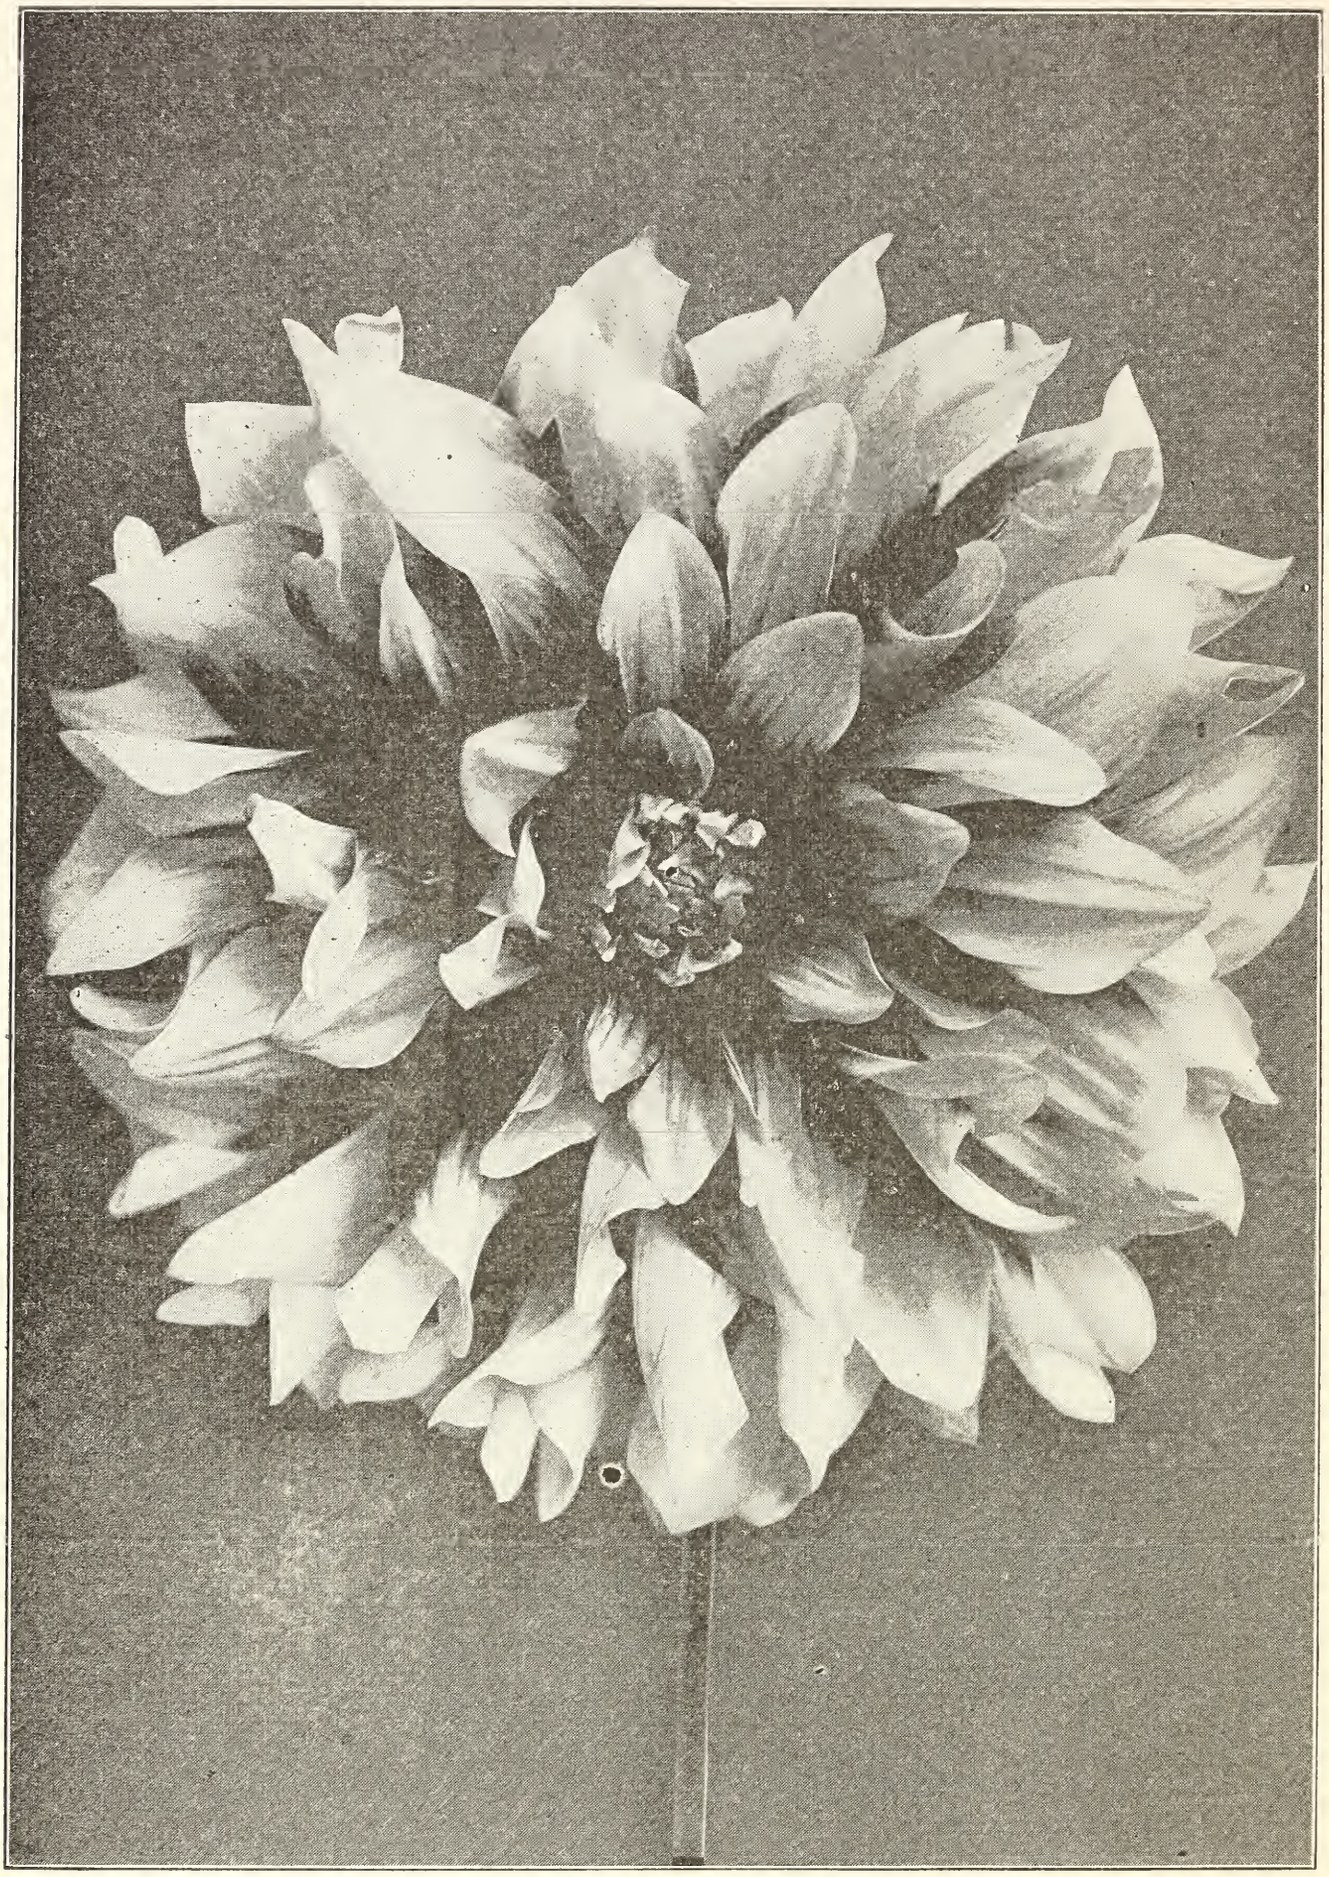
Frances Lane, No. 322. Pretty light, velvety lavender red Pæony-flowered Dahlia with pale lavender which streaks down through the main petals. Petals broad and flat with tips slightly curled. A pleasing, striking specimen. Erect on good stems. A noticeable circle of canary yellow surrounds the pollen disc. Price, **$1.00**

Hazel Van Allen, No. 1498. A lovely reddish magenta of the Decorative type, slightly shading cerise and clouded at base of petals lighter. A full, large flower with narrow, nicely formed petals. Erect on long, strong stems. Price, **$1.00**

Janet Cross, No. 432. A finely pointed Cactus type of a lovely shade of very rich salmon pink, almost clear save for a very few faint yellow petals in the center, which are finely bordered with pink. A large size Cactus on good stems. A fine specimen. Unusual long, stiff stems often measuring 16 inches. Price, **$1.00**

Ruth Van Fleet, No. 1451. Clear light canary yellow. The stems are extra long, often measuring 16 inches. The flowers are extremely large, measuring from 6 to 8½ inches in diameter and are held perfectly erect on its stiff, long stems. Hybrid Cactus. It should be seen to be appreciated. Price, **$2.00**

Vivian Jacoy, No. 1450. A mingling of white and light cerise, streaked and blotched through entire petals of a Pæony type. Petals toward center curl very pleasingly. An odd and pretty specimen on long stems, and a good sized flower. Price, **$1.00**



ALLEGHANY MOUNTAIN

THE EIGHT BROTHERS OF THE LOMA FAMILY

Alan Loma, No. 459. A pure waxy white Pæony-flowered Dahlia with large broad flat petals. Very prominent yellow pollen disc with a few small curling petals around it. A large, heavy flower. Certainly a splendid specimen. Very erect on long stout stems. Price, **$1.00**

Eugene Loma, No. 418. A light canary yellow to the center of this fluffy Pæony-flowered Dahlia. The shading runs lighter toward points and the very faintest of pink shows on sides and back of petals. Petals slim and rolled to a cup, twisted and curled around the center in a very peculiar manner. A very unusual flower. Erect on good stems. Price, **$1.00**

Forest Loma, No. 468. Deep cerise pink Pæony-flowered Dahlia, blotched and streaked canary yellow, with yellow at center. Petals are finely formed and numerous and curled at points. Very large and another erect specimen on good stems. Price, **$1.00**

Harry Loma, No. 438. A pretty pink Pæony-flowered, streaked artistically with white and with a faint bluish cast at tips, giving a lavender hue. A full flower with very curly petals in center. Another specimen with extra long stems. Petals long, slim, numerous, and sharply pointed. Price, **$1.00**

Kenneth Loma, No. 422. A lovely, clear, light canary yellow, or lemon, shading makes this a fine specimen in its family. It is of the Decorative style, standing very erect on good, strong stems, and a very large flower. Nice fluffy petals slightly curled. A gorgeous flower and unusually fine clean color. Price, **$1.00**

Robert Loma, No. 490. Golden amber shaded slightly with salmon pink, pink showing more on backs of petals, of full Pæony type. Good size with long stems. This is one of the new attractive colors so desirable in the flower garden. Price, **$1.00**

Rupert Loma, No. 456. A dull, old rose shading runs predominantly through the petals of this Dahlia, while a noticeable amount of lavender touches many of the petals' tips. It bears the appearance of being streaked lighter and darker shades of the rose and lavender. Difficult to describe. It has a very full blossom of perfect form, of Decorative type. Good size, standing boldly on its long, stout stems. This Dahlia's foliage is beautiful and scant in appearance, with long, jointed stalks. Price, **$1.00**

Stephen Loma, No. 1370. A very pleasing dark magenta of Pæony flowered type. Very full toward center with slim, nicely formed petals. Extra large size, with stout stems. Price, **$1.00**

A TESTIMONIAL

September 24, 1923. A gentleman in Washington writes me thus: "I have enjoyed the best results from your new Dahlia creations, this year that I have ever experienced. Lake Superior is a wonder, produced several blossoms over 14 inches. Caruso and the Deacon cannot be beat, both of them are fine growers, elegant stems, and blooms over 11 inches. I had one Lake Huron over 14 inches and long fine stem. Lake Ontario is a beauty but much smaller, my largest bloom was about 10 inches."

Note the Following

Do not plant your Dahlias in the shade.

Stunted plants, thick and bushy on top, with no blossoms, are the result of dry weather, or too heavy soil.

I guarantee every bulb I send out.

Do not wait for bulbs to sprout before planting. There is nothing like mother earth to sprout them. Plant them where you want them to grow.

The more flowers you cut the better Dahlias bloom.

Dahlias do well with me; they will with you, if you will follow my instructions carefully, and above all, note what is said on another page in regard to watering.

DR. WALTER VAN FLEET

NEW DECORATIVE DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

"Our Country," No. 2458. The color combination of this wonderful, new decorative Dahlia is superior to anything I have ever produced in a dahlia. The ground or main color is a very deep purple while the florets are heavily tipped pure white. It is truly a mammoth and the formation is truly wonderful. It is a very deep, heavy flower with a never failing center. The colors run very uniform. It has never been known to produce solid purple, or white flowers as in many cases with variegated dahlias. It was offered to the public in 1923 for the first time. Price of bulbs or plants **$50.00 each.**

The Boston Evening Globe, October 17, 1923, speaking of a dahlia garden near Boston says: "In this garden are prize winning specimens such as **"Our Country"** grown for the first time this year and acknowledged as the most beautiful variety ever developed with its deep purple petals tipped with white."

Baby Mae, No. 700. This unique flower is a beautiful shade of lavender pink changing to a lighter shade in center. It is nearly a duplicate in color to the Millionaire, but much smaller in size. Price, **$1.50**

Beacon Light, No. 591. White changing to a beautiful cream at base of petals. A most clear, beautiful flower. Fine for cutting. The formation of this flower together with the color is most desirable. Price, **$3.00**

Black Beauty, No. 534. Nearly black. Medium sized flower larger than Eng. Blk. Prince. Price, **75c.**

Bolton, No. 1424. Golden amber. Flowers good size and odd color. Good length of stem. Price, **50c.**

Bonny Best, No. 577. Very light cream and shaded darker at base. Petals, broad and serrated at tips. A most beautiful, clean color and a good sized flower on heavy stems. Price, **$1.00**

B. P. O. E. No. 2324. Color, light purple or lilac. A large deep full flower held on good stout stems. This is a Dahlia of more than usual merit. The color is a very desirable one and it combines many desirable features that few Dahlias possess. Price, **$10.00**

Clara Annette, No. 731. The color of this Dahlia is a rich, medium shade of carmine red. Each petal is slightly veined yellow and slightly tipped yellow. It is a fine flower in every respect and should be in every Dahlia garden. Price, **$1.00**

Clara Barton, No. 2145. The color is a very deep orange brown. The color of this Dahlia is very hard to describe with any accuracy, but it is a most desirable color. It is a Dahlia of wonderful formation, and it is truly a mammoth. It somewhat resembles its parent the U. S. A., but the color is slightly darker. This beautiful Dahlia is an unusually free bloomer, which fact, together with its mammoth size, make it worth a place in every Dahlia fancier's garden, both as an exhibition Dahlia and for garden decorations. Price, **$5.00**

Crimson Cushion, No. 2185. Color, crimson. Each petal heavily tipped white, though about half of the flowers come either wholly or partly solid crimson. This new Dahlia is an exceedingly attractiye one and a very free bloomer. A very full, deep flower of good form and size. Price, **$5.00**

Daniel Webster, No. 566. Deep blush rose pink. A very odd and striking color. Petals are quite slim and tapering to fine points, also have a rolled and twisted appearance. The outer edge of each petal is bordered with a much lighter shade. Price, **50c.**

Douglas Fairbanks, No. 442. Crushed strawberry shaded to yellow at base. Price, **$1.00**

Early Fortune, No. 2300. Color, light canary yellow, darker in center and shaded to white at tips. A very clean nice color. A flower blooming very early. Price, **$2.00**

Eee Zee, No. 2403. Color, a deep rich salmon pink. A very rich desirable color. Flowers on fine stems for cutting. A free bloomer. Price, **$5.00**

E. J. Pease, No. 1428. Fire red. Slight veins of yellow running lengthwise through petals giving the flower a prominent striped appearance. Price, **$1.00**

Emma Hoxie, No. 795. Color, light gold with cloudings of pink. The florets are quite slim and curling, forming a most beautiful flower in shape, color, and large size. Price, **$3.00**

Florence Griswold, No. 2267. Color, white. Each petal clouded and stained red at base. A medium sized flower, but very showy. Price, **$2.50**

Florine, No. 975. This new Decorative Dahlia is certainly desirable. The color is a beautiful shade of golden apricot. The flower is of a beautiful Decorative formation. A very free bloomer. The blossoms are borne on good stems. Price, **$2.50**

Gen. Markel, No. 750. A rich deep carmine in color and very bright. A deep, full flower which is much admired for its rich coloring. Price, **$1.00**

OUR COUNTRY

NEW DECORATIVE DAHLIAS—Continued

Gladys L., No. 1018. Rich soft shade of light magenta. A very heavy, deep flower on long stems. Each petal is deeply serrated at tips. One of the finest Decoratives. Price, **50c.**

Hall Mark, No. 2225. Color, light canary yellow. A deep, full flower and a very clear, nice shade. This Dahlia can be grown to an immense size with a little care. Price, **$5.00**

Hocus Pocus, No. 2401. Color, a yellow salmon, or very light red, while some florets are nearly white and occasionally flowers are more than half white. A large flower and a very odd, but attractive combination. Price, **$5.00**

Immensity, No. 2262. Color, a pure orange. A very attractiye flower on good stems. A very desirable and unusual color. Price, **$2.50**

International, No. 2218. The color of this flower is strikingly odd and a true novelty. It is a sort of fawn color with cloudings of yellow and darker fawn. A nicely formed Decorative with a full center. Price, **$10.00**

John Drew, No. 581. A very light pink, while the reverse side of the petals is darker pink. This is an elegant, large, full flower and should be seen to be appreciated. Price, **$3.00**

Justice White, No. 2196. Color, bright carmine with each petal nearly half white at tips. A very large fluffy flower on good strong stems. Occasionally a flower comes solid carmine or nearly so. When grown to perfection this Dahlia is of immense size and a beauty. Price, **$5.00**

King Arthur, No. 307. A rich garnet red, solid color. This flower when beginning to bloom somewhat resembles a Narcissus, as the outer petals open usually about a day before the others begin to unfold. It is of large size and a beautiful Decorative shape with extra good stems. For richness of coloring this Dahlia is seldom equalled. Price, **$1.00**

Lady Betty, No. 1330. Nice rich, velvety purple with reddish cast. Good size, nicely formed petals, quite numerous. Very attractive. Price, **$2.00**

Lady Cardine, No. 2017. A large flower of the Decorative type and slightly oval face. The color is a medium rich carmine and each petal heavily tipped white. Occasionally a petal is bordered with gold on one side. One of the most beautiful flowers grown and on heavy stiff stems. A wonderful free bloomer. Price, **$5.00**

Lady Lenox, No. 2374. Color, medium orange and medium in size, but very good both in color and form. Some flowers come clouded white, but an extra nice Dahlia. Price, **$5.00**

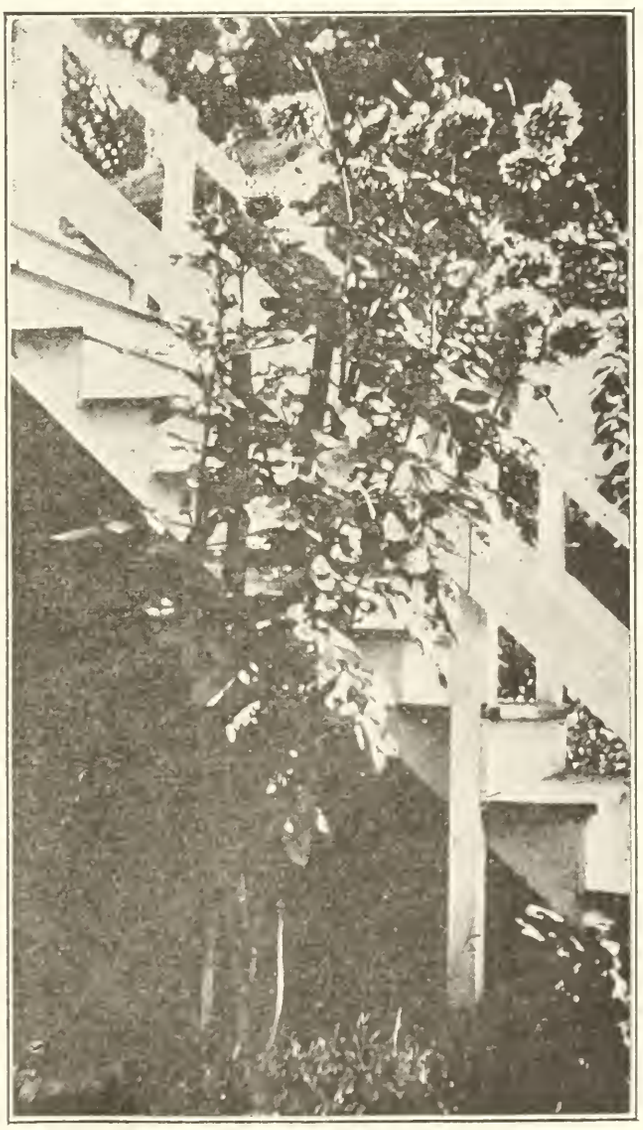
Mabel Normand, No. 1005. Very light canary yellow. A nice clean colored flower on good stems. Price, **$1.00**

Marcelline, No. 1353. Pure glistening white. Petals wide and curled, twisted in various shapes. Very long stems. Good sized flowers. Price, **$1.00**

Mary Sefton Thomas, No. 509. Canary yellow. Petals broad and pointed. Very heavy flower of a beautiful shade and shape. Large size and good stems. Very attractive. Price, **$2.00**

Marillyn Miller, No. 2144. Color, salmon, heavily shaded yellow. This is a medium sized flower, but has extra nice stems for cutting, making it a very desirable cut flower Dahlia of a fine color. Price, **$1.50**

Mme. Etta, No. 1430. Very dark lavender pink. Petals long, slim, rolled and twisted. A very full, large flower. Good length of stem. A nice specimen and very desirable. Price, **$2.00**



LADY CARDINE—13 Blooms

NEW DECORATIVE DAHLIAS—Continued

Meadow Vale, No. 2112. The color of this beautiful Dahlia is light canary yellow. Each petal is heavily tipped white. The softness of the colors of this medium sized Dahlia makes it a most wonderful and desirable flower. It is borne on good stems for cutting. A basket of these Dahlias presents a most striking appearance. A Meadow Vale should be in every Dahlia lover's collection. Price, **$3.00**

Mongolian, No. 1092. Very dark maroon. Nearly black. Medium sized flower and a very free flowering Dahlia. Price, **25c.**

Mr. Layng. Color is a deep pink with lighter shadings. This is a mammoth flower on fine stems for cutting. A very free blooming and attractive Dahlia. Price, **$3.00**

Mrs. A. H. Smith, No. 888. Color, a beautiful light canary yellow. A very large flower on good stems and is a prize in any garden. Price, **$5.00**

None-So-Pretty, No. 915. This new Dahlia can be mistaken for pure white when seen at a distance, but on close inspection it has an overcast of pink. The formation of the Dahlia is unusually attractive and its free blooming qualities are unsurpassed. To see the beauty of this Dahlia you should have one in your collection. Price, **$2.00**

Our Country, No. 2458. The color combination of this wonderful, new decorative Dahlia is superior to anything I have ever produced in a Dahlia. The ground, or main color is a very deep purple while the florets are heavily tipped pure white. It is truly a mammoth and the formation is truly wonderful. It is a very deep, heavy flower with a never failing center; and the colors run very uniform. It has never been known to produce solid purple, or solid white flowers as in many cases with variegated Dahlias. It is offered to the public in 1923 for the first time. Price, **$50.00**

Oweenee, No. 1117. Variegated cerise and white. This flower is of very delicate coloring, petals being fine and very numerous. They are splashed and clouded with light cerise and white. One of those very desirable light shades. Price, **$1.00**

Plato, No. 799. Color, salmon red. A nice colored flower and about same shape as Mrs. Roosevelt. On fine, long, stiff stems for cutting. A very profuse bloomer. Price, **$1.00**

World's Wonder, No. 550. Color, golden salmon. Low plant and an early bloomer. This is a very large, deep, full flower with almost a never disappearing center. The keeping qualities of this flower are very unusual and it is borne on very long, stiff stems. A profuse bloomer. Price, **$3.00**

DAHLIA STAKES

As many of my customers make inquiries of me as to where they may obtain strong Dahlia stakes, I have arranged to furnish a good, strong, Oak Stake, 1¼ inches square, and 6 feet long, in the rough, just as they come from the mill, at 11c. each, F. O. B. Westerly.

NEW CACTUS DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

Head of the Nation, No. 2209. The largest incurved, claw-shaped true cactus Dahlia in existence. I have grown this wonderful Dahlia in my garden perfectly natural, without any disbudding whatever, to measure nine inches in diameter. Think what can be done with this flower by disbudding. In color this Dahlia is purple with a magenta overcast. It makes a tall plant and is an exceedingly free bloomer. When permitted to grow and bloom naturally it presents a novel sight seldom seen in a Dahlia garden.
Price of bulbs or plants, **$75.00 each**

Ad. Grayson, No. 2250. Hybrid Cactus. The color of this beautiful Dahlia is an old rose slightly shaded a silvery rose. The petals are somewhat twisting and the whole flower is of a most exquisite formation. One of the best and most attractive cut flower Dahlias with extra nice long stems.
Price, **$5.00**

Bishop's Hat, No. 2023. Color, a light DuBarry. A full, large flower with long, curly petals. Price, **$2.50**

Black Pekin. Hybrid Cactus. Color, nearly black. A beautiful, large, full-centered Dahlia and very attractive. Price, **$3.00**

Blazing Star, No. 891. Color is a bright rich carmine. An unusually good type of Cactus, but a rather small flower. However, it is a very early and attractive specimen.
Price, **50c.**

Bridal Veil, No. 2020. Pure glistening white. The petals of this flower are folded nicely and points are twisted in such a unique form that it is easily the most beautiful white Cactus Dahlia I have ever seen. The flowers are large and stand erect on good stiff stems superior to any other white Cactus. Price, **$5.00**

Bull Moose, No. 338. Hybrid Cactus. Color of outer petals a beautiful shade of pinkish yellow. Petals slim and quite plentiful. Center petals changing to canary yellow. A good flower with long stems. Large size and a fine specimen. Free bloomer.
Price, **$3.00**

Capt. John Smith, Hybrid Cactus. Color, a rich, bright carmine red. A mammoth Cactus with a fine center and a wonder in size and color. The flower often measures 9 and 10 inches. Price, **$5.00**

Caroline Laffield, No. 1427. Hybrid Cactus. A beautiful, large, light, canary yellow Cactus. Very large and full, measuring 7½ inches in diameter. Extra fine. Good length of stem. A splendid specimen.
Price, **$2.00**

Carrie Hammond, No. 890. Deep pink shaded yellow at base. The petals are finely rolled and twisted. Price, **50c.**

Caruso, No. 2132. Hybrid Cactus. This mammoth flower is certainly a wonder. The color is yellow, pink and salmon blended together in a most unique manner. The formation of this Dahlia is extremely beautiful and is a very deep, heavy flower.
Price, **$15.00**

Christy Hoxie, No. 1436. Color, pale pink. Good formed flower on good stems.
Price, **$1.50**

Clawfish, No. 430. Deep carmine. Good size flower and a finely formed Cactus.

LADY EVELYN

JUSTICE WHITE

NEW CACTUS DAHLIAS—Continued

F. Earl James, No. 242. Color, deep mottled cerise pink. This flower is very large and finely formed, of Hybrid Cactus type. Petals are very curly and twisted and some turn backward. The whole flower is most beautiful and makes an exceedingly pleasing effect. Price, **$3.00**

F. L. Deery, No. 306. A Dahlia made up of numerous, finely formed, pointed petals of Cactus type. It is a lovely lavender pink blotched through the fine petals and in some instances tiny spots of the coloring appear like the head of a pin. The pale lavender is clearer at very tips. Yellow shows very slightly at center. A fine size. The long, stout stems hold the Dahlia very erect. Price, **$1.50**

Geo. L. Stillman, No. 67. The color of this beautiful new Cactus Dahlia is a very rich, velvety, deep carmine. The form is exquisite, while in size it is a mammoth, having been grown to measure 11 inches across with stems 26 and 31 inches long. It has been grown in all climates. It bears its originator's name and has won prizes everywhere. Price, **$3.00**

King Tom, No. 2003. Pure deep rose. This is a Hybrid Cactus Dahlia of very large size and a beautiful color. The petals are long and fold back to a long, sharp point. The whole flower much resembles Lady Helen except in color and is borne on good long stiff stems. Price, **$5.00**

Lady Helen, No. 217. A beautiful Hybrid Cactus Dahlia as distinctly new in quality and excellence as in origin; standing erect on long stems with finely formed and curled petals spreading out, making a diameter varying from $7\frac{1}{2}$ to $8\frac{1}{2}$ inches. It is a striking and beautiful toned pink in the main body coloring, with slight veins of white, almost cream, running through the petals. Prominent cream tips make a decidedly new and altogether forcible addition to the whole flower. The Dahlia should be seen to be fully appreciated, for words of pen cannot do it justice. A profuse bloomer. Price, **$3.00**

Lieut. Joe, No. 800. Color, medium carmine. Petals bordered with a light vermilion. A very beautiful Dahlia. Price, **$1.50**

Mastodon, No. 822. Color, bright medium carmine. Petals slim and very twisting, standing in an upright and somewhat claw-shaped position. Extra large Cactus Dahlia of good form. Price, **$3.00**

Mrs. Aaron Ward, No. 723. A new Dahlia of unusual merit. The color is of a light reddish shade, veined and tipped yellow. The petals are very slim and curling, twisting in a very attractive manner. The Dahlia itself is very large and should be in every home garden. Price, **$3.00**

Mt. Shasta, No. 268. Hybrid Cactus. Very light shell pink with slightly deeper shadings of pink through the petals. A faint tinge of yellow shows toward center. Petals, long, slim and rolled at points. An extra fine, full, deep flower and enormous size. This flower when grown to perfection is simply a wonder in size, shape and color. Stands very erect on good, stout stems. Price, **$2.00**

New England Beauty, No. 2198. Hybrid Cactus. Color, a medium carmine red. A very large flower with a good center and a fine form. Very desirable Dahlia in any garden. Price, **$5.00**

Orange Jelly, No. 2219. Hybrid Cactus. Color, pure canary yellow. A nice, lovely flower and beautiful color. This Dahlia is borne on good stems. Price, **$5.00**

Queen Josephine, No. 519. A handsome Cactus Dahlia of light butter yellow shaded to light pink at points. Petals are quite incurved. A good sized flower and very attractive. Price, **50c.**

Red Letter, No. 2012. Hybrid Cactus. Color, red magenta. A rich color with heavy rolled petals. Price, **$2.50**

Rosa Bonheur, No. 669. Hybrid Cactus. Dark scarlet. Petals quite broadened out and rolled to a point at tips. Price, **$1.00**

The U. S. A., No. 749. The color of this exquisite, new mammoth Dahlia is a deep orange, that very unusual color so hard to get in a Dahlia. The formation as well as the color is so unique and novel that to attempt to describe it accurately would be an impossibility. It is a very free blooming Dahlia. Price, **$3.00**

Wonder of Nature, No. 2050. Hybrid Cactus of medium size. This wonderful Dahlia presents the most gorgeous array of beautiful flowers on the one plant of any Dahlia that has ever come to my notice. The flowers are of a beautiful formation and are borne profusely on nice stems for cutting. Some of the blossoms possess the five shades that these flowers are made up of, viz: canary yellow, deep salmon, light salmon, pink and white. No person can accurately judge the beauty of this wonderful Dahlia by any description that can be put on paper. Hundreds of people who visited my fields and saw this Dahlia truthfully expressed it when they called it a real wonder. Price, **$3.00**

Yuletide, No. 2080. Pure glistening white, a very large flower with a full center. Petals are slightly curled and twisted. A gorgeous white. Price, **$5.00**

ADDITIONAL NEW PÆONY-FLOWERED DAHLIAS

ORIGINATED BY GEO. L. STILLMAN

The following new Paeony-flowered Dahlias were all recently originated by me after the most expensive and exhaustive experimental trials.

PÆONY-FLOWERED DAHLIAS

I prepay carriage on all retail bulb orders, accompanied by cash in full, in the United States. This does not apply to Special Offers.

Annie Slocombe. Another new and choice Pæony-flowered Dahlia with a diameter measuring from 7½ to 8 inches. Its face is entirely of a bright, pleasing canary yellow, but the entire back of the petals is covered with a dull shade of salmon red streaked with the yellow of the face. It is very striking and when held to view one might think it was tipped salmon red, for some of the petals turn at the points, showing the back coloring. It is on long stems, good for cutting. An extra nice variety. Price, **$1.00**

Bertha Von Suttner. Salmon pink, shaded yellow. Large flowers held erect on long, stiff stems. The flower is remarkable in form, with broad petals twisted at points most artistically. Price, **$1.00**

PLEASE NOTICE

Every Dahlia offered in this catalog is described to the best of my ability as they are while growing in my fields without any disbudding; and every statement as to size is positively correct as they grow for me with no extra care. If disbudding with proper care is resorted to thay will exceed sizes stated. If a purchaser does not grow them to sizes stated the fault is not mine. It may be the weather, the kind of soil, lack of water, and a dozen other things. One year's trial is not sufficient to try out a new variety. Experiments in your own garden are the best education.

PRICES.

Orders received prior to Jan. 1st for shipment the following season will be subject to prices quoted in the new catalogue even though they have beeen reduced from the last issue.

All shipments to Canada after being delivered to the Express Company or the U. S. mail are at purchaser's risk as to delays or loss.

SPECIAL OFFERS

Parcel Post or Express paid by the purchaser. See table below.

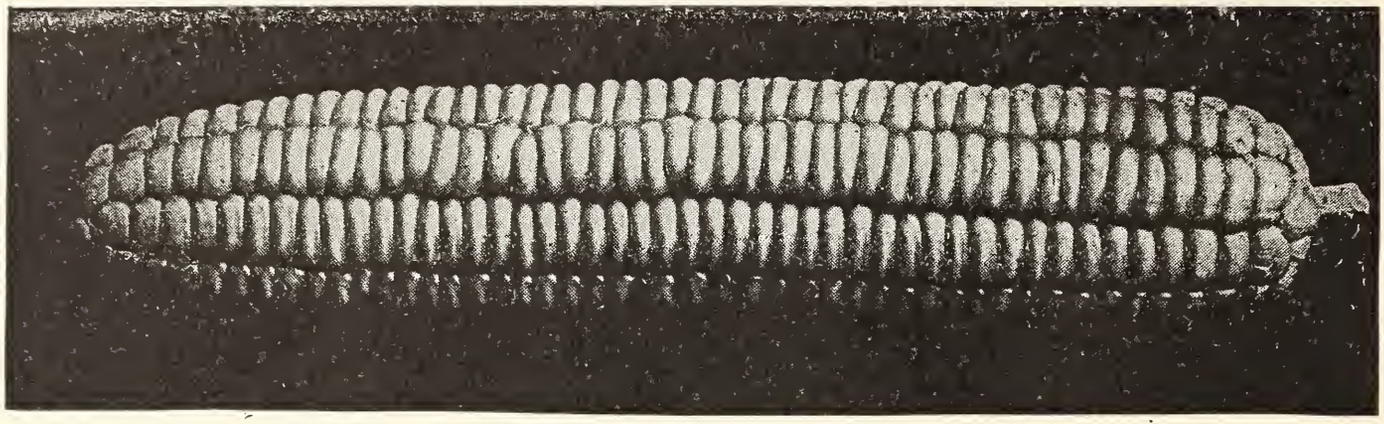
SEED FIELD CORN

During the last few years I have taken great pride in producing the best corn for family use that can be grown. I think I have now four varieties that contain all the desirable features that any person could wish for family use. One for corn meal and three for green corn. Illustrations and prices for selected seed follow.



STILLMAN'S SPECIAL RHODE ISLAND DOUBLE CAP CORN

Outer end entirely capped. Butt nearly capped. The best white northern corn grown. The ears are large, butt stems are exceedingly small. The ears are easily husked and broken off. It yields two and three ears to the stalk. The kernels are large and in straight rows. It makes the sweetest and best table meal. The kind that makes the best R. I. Johnny-Cakes. Always get the Stillman strain.

30c. pt. **50c. qt.** **$1.50 four qts.**
$3.00 eight qts. **$5.00 half bu.**

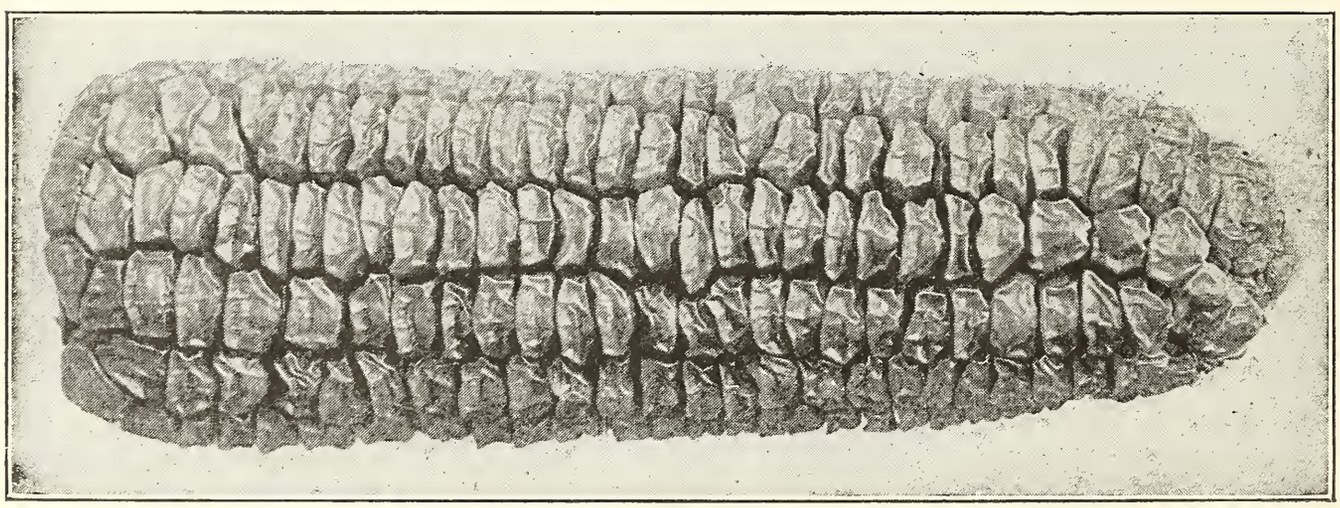
CORN MEAL

Made from Stillman's Special Rhode Island Double Cap Corn. It's the sweetest and best meal on the market. Ground in an old-fashioned stone "Grist Mill." Fresh every week. Price, 10 lbs. **$1.25,** postpaid in 1st and 2d Zone.

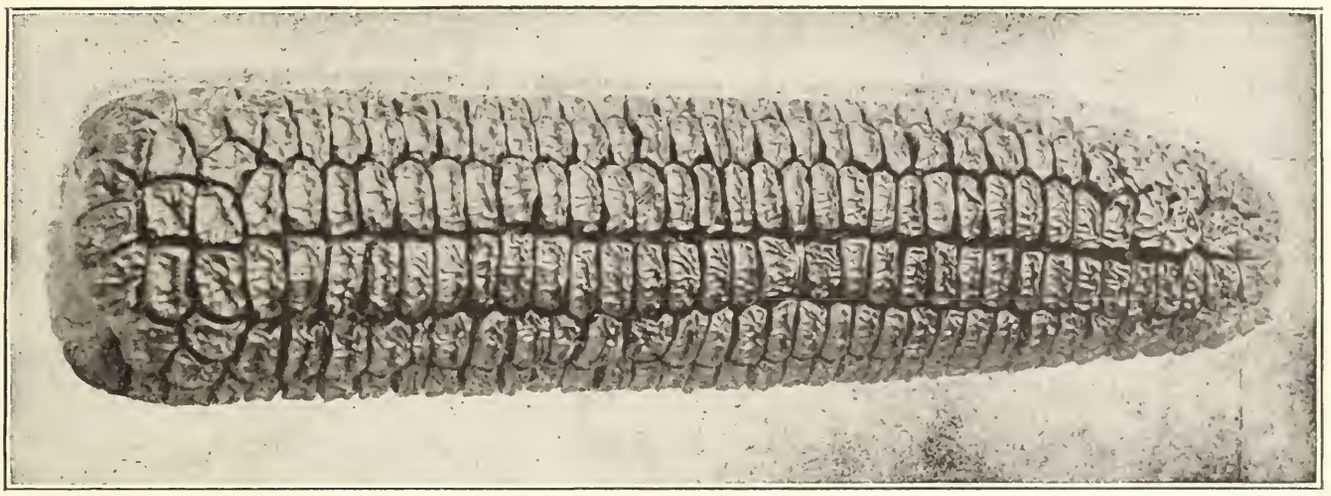
STILLMAN'S EXTRA EARLY GIANT SWEET CORN

matures the earliest and has the largest ears of any extra early sweet corn. Nothing like it for the earliest crop.

Selected Seed, 75c. per pint, 40c. per ½ pint



Stillman's Extra Early Giant Corn. Ears 6 to 7 inches.



The New Sweet Orange Corn. Ears 7 to 8 inches

THE NEW SWEET ORANGE CORN

Much larger than the Golden Bantam. The sweetest medium early green corn grown. Grows a medium height and ears profusely.

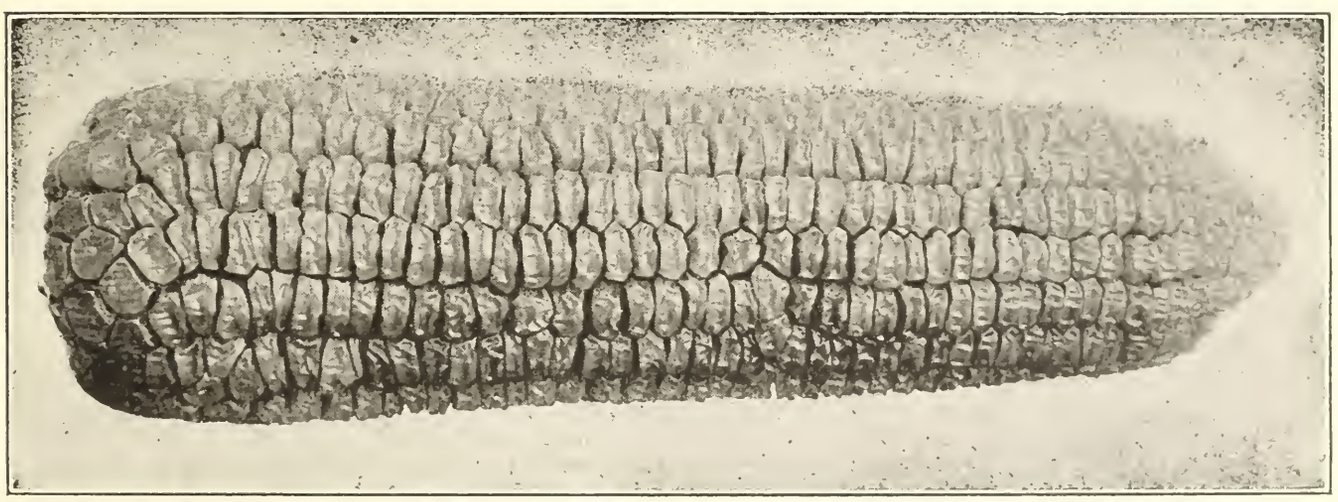
Selected Seed, 75c. per quart, 40c. per pint

MT. SHASTA SWEET CORN

The largest and sweetest green corn in the world. This mammoth new corn is in a class by itself. Nothing can beat it for sweetness and its mammoth size.

June 6, 1923. A gentleman in South Carolina wrote me thus: "Please ship me two pounds of seed of your Mt. Shasta corn. I noticed your claim that your Mt. Shasta was the largest and sweetest corn, and I tried a small quantity last year, really thinking you were covering too much territory in your claim. Have decided you knew whereof you spoke. After eating your corn we no longer care for the ordinary sweet corn."

Selected Seed, 75c. per pint, 40c. per ½ pint



Mt. Shasta Sweet Corn. Ears 9 to 11 inches

WORM KILLER

THE WILLIAMS WORM KILLER

I have taken the agency for this new device for killing the borer inside the Dahlia stalks. It is a handy little tool and works to perfection without the slightest injury to the plants.

DAHLIA SEED

To those who have never tried any of my Dahlia seed I must say that they are missing one of the greatest pleasures of the flower garden. I do not save seed from poor, insignificant flowers. The wonderful success my customers have with my seed is ample proof that it is far superior to any on the market.

Important.—It is very important that you understand that every plant you get from *seed* is an entirely new variety and may be even better than the flower it is taken from.

DIRECTIONS FOR PLANTING

In the latitude of New York City seed should be sown about March 15th to April 1st. Flats or boxes about 3 or 4 inches deep are best. Cover the seed about 1 inch deep and keep in a warm place until the plants are all above ground. Then they can be moved to a cooler place. They should be kept in the sun to avoid growing too slender. Transplant in the open when weather is free from frost, about 15 inches apart. Discard any undesirable ones as soon as they bloom, thus giving the others more room.

WESTERLY, RHODE ISLAND

The National Dahlia Society of America, whose headquarters are at Seattle, Washington, will stage a weekly contest exhibit, every Monday beginning in March, and ending in December at the Bon-Marche, Seattle, Washington.

These exhibits will include all flowers, grown out of doors starting with Crocus, Narcisis, Daffodils, and other flowers as they come into bloom, Tulips, Pæonies, Sweet Peas, Roses, Dahlias, Gladiolas, Lillies, Astors, Perenials, and Chrysanthemums. Everybody is welcome to enter their blooms each week, during the season and the one securing the most awards in any particular class will receive a trophy. Dahlia seedlings must be produced from seed grown in exhibitor's own garden, and if found worthy of an award, may then be named by the producer and registered with the National Dahlia Society of America.

1924 Fall Dahlia Show will be held at the Bon-Marche, Seattle, Washington, September 19th and 20th.

April 3, 1923.— A gentleman in Canada sends this *unsolicited* testimonial

To Whom It May Concern

I have the greatest pleasure in recommending Geo. L. Stillman dahlias to any lover of this magnificent flower. I have grown them successfully for 7 years and they have been the admiration of hundreds of flower lovers.

April 11, 1923.— A lady in Ky. wrote me thus: "I have ordered dahlias from you for several seasons past and I feel like I want you to know the splendid success I had with them last fall. I ordered No. 4 collection, every bulb came up save one. These together with bulbs from previous orders were the most beautiful collection I have ever seen. Such gorgeous colors and the shape and size of the flowers were magnificent."

April 7, 1923.— A gentleman in N. J. wrote me thus: "Last year I purchased a five dollar package of your seed and had some of the most wonderful flowers anyone ever saw."

April, 1923.— A lady in Ohio writes: "I sure was pleased with the bulbs I had from you last year. They were beauties and everyone who saw them thought they were marvelous."

May 3, 1923.— A gentleman in North Carolina wrote in addition to his order: "Permit to congratulate you most heartily upon your beautiful catalogue. Please keep it up. I believe you are the leading dahlia specialist in the United States."

May, 1923.— A lady in Miss. writes: "My seed and bulbs came all right. I have over 200 nice plants from seed, and all the bulbs came up and are growing nicely, but two and one of these I think will come."

May 14, 1923.— A lady in Penn. writes: "Just a line to tell you my dahlias arrived. I never received bulbs in such splendid condition. I congratulate you."

May, 1923.— A lady in Oklahoma writes: "All the years I have traded with you I have never received an unsatisfactory bulb."

May 21, 1923.— A gentleman in Ohio writes: " Please fill this my second order for dahlia bulbs this year; my other order arrived in good shape last Tuesday and I liked the way you filled the order."

June 6, 1923.— A lady in Ill. wrote me: " We saw many dahlias in South America but none which even approached those which we have had from bulbs and seed bought of you."

Aug. 16, 1923.— A lady in N. J. writes: " This past spring I purchased seven dollars worth of dahlia seed from you and I think everyone came up."

Aug. 20, 1923.— A lady in Tenn. writes as follows: " My dahlias which came from your seed are so wonderful again this year that I want to exhibit then at the fair. You may be interested in knowing that for three years I have had five hundred dahlias in my garden all of which came from your seed. They often measure ten and eleven inches."

Aug. 30, 1923.— A gentleman in West Va. writes: " That U. S. A. dahlia of yours is fine and at the present time does not have a peer among all my dahlias and I have some fine ones. One plant of the U. S. A. now blooming has six flowers, the smallest one 9 inches across."

Sept. 2, 1923.— A lady in Ala writes: " I consider the dahlias that I have from you the most beautiful ones I have. I have tried to get the best from the largest growers over the country."

Sept. 7, 1923.— A lady on Long Island writes: " I want to tell you what great success I have had with my seed from the Five World Winners. I have a great many colors and perfectly beautiful. Some are as large as a tea plate. Am more than delighted with them. All my bulbs from you are now in bloom. My dahlias this year are the best ever."

Sept. 19, 1923.— A lady in Tenn. writes: " My dahlias grown from seed of the Five World Winners are getting to be the topic of the town for the women and the men as well. They have given delightful surprises and afforded a great deal of pleasure."

Sept. 21, 1923.— A gentleman on L. I. writes: " Will you kindly put aside a " Philip Loma " for me as that is the one you could not supply when I ordered the Loma Family last Fall. You sent me the " Queen Esther " which I am proud to possess. I am well satisfied with the flowers which are all of large size in this Loma Family."

Oct. 3, 1923.— A gentleman in West Va. writes: " It is with great pleasure I advise you of the wonderful dahlias I am growing this year from your seed. The blooms are marvelous in size and shape and colorings. Oriental shades are many and most distinct even surpassing last year's productions."
